Astro Finger Guard Clear

Tools & Equipment

- Pencil
- Clean Cloth
- Degreaser

Introduction

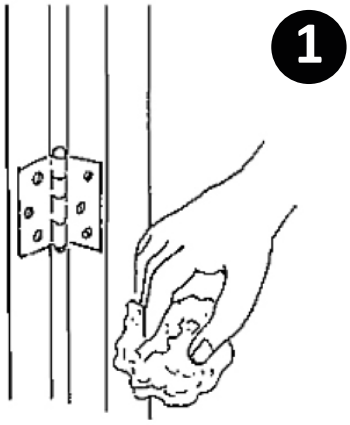
Please read this instruction carefully before installing and using the device. The protective function and any possible guarantee of the device might be affected if you do not follow the instructions. Pass the instructions to the end user for future reference.

WARNING – REPLACE THE DEVICE IF ANY PART IS BROKEN, TORN OR MISSING

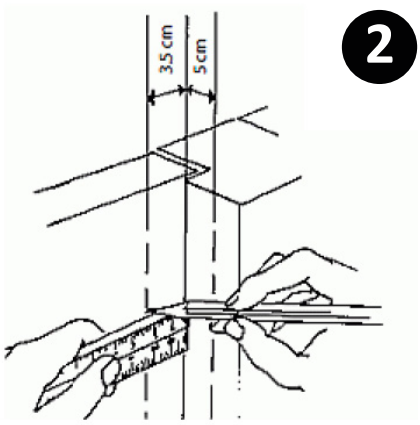
The Astro Finger Guard Clear is suitable for:

- Standard timber or steel framed doors Minimum 35mm door thickness Butt hinged doors
- Conventional pedestrian door sizes Opening angles up to 110°on the hinged side.

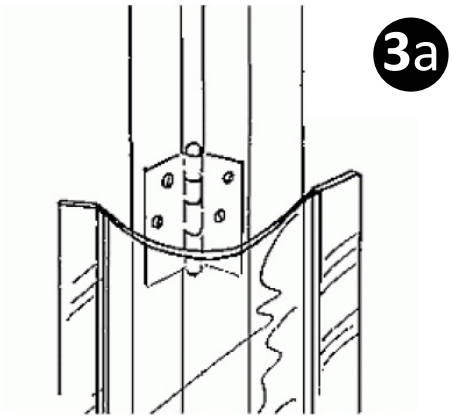
Installation

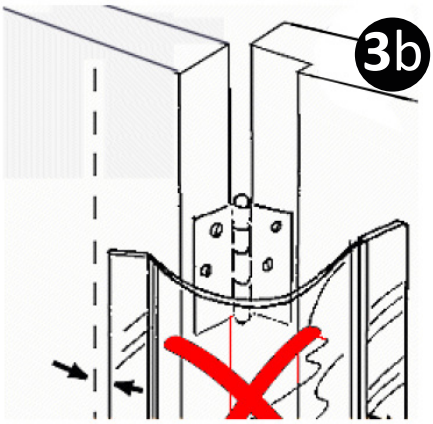


1. Open the door and thoroughly clean and dry the door and frame, ensuring that no grease or other residues remain.

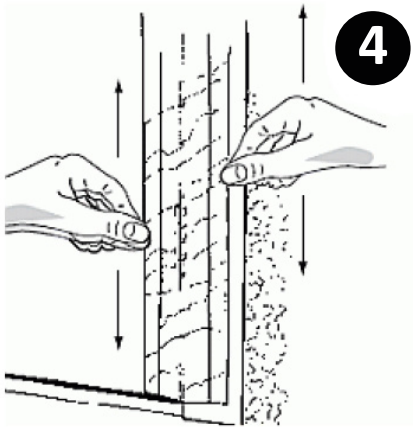


2. Close the door. Lightly draw with a pencil two vertical lines, one on the door exactly 3.5 cm from the corner, and one on the door frame exactly 5 cm from the corner, up to a height of 1.2 mtr from the floor.





3a. Open the door at exactly 45 degrees and remove the protective paper from one adhesive strip. Attach the adhesive strip to the doorframe just inside the guideline, ensuring that the bottom of the strip is no more than 0.5 cm above the floor. Remove the protective paper from the second adhesive strip and attach it to the door. (See Drawing 3a and 3b)



4. To ensure correct adhesion, rub your fingers firmly up and down the adhesive strips for 2 minutes. Then close the door and do not open for at least 15 minutes. If the above installation instructions of placement of strips at 3.5 cm and 5 cm from the corner of the door are not followed properly, a gap may result making the strips less effective, which may result in an accident.

Storage and disposal

Astro Finger Guard Clear should be stored indoors. No shelf life is given as this product will not deteriorate in storage. For further information on installation requirements please contact the technical team on: tel 01329 844 500 or email sales@astroflame.com
